RIGHT OF TERROR

Range Towns of Minnesota Fought Flames.

CONDITIONS ARE IMPROVING

However, Is Shut Off Communication by the Flames and Fear Is Felt for Inhabitants.

Minn., Sept. 10.—It was a terror on the range and one anxiety in Duluth, but Wednesday conditions appeared to have for the better.

Afternoon and night the threatened half a dozen of the fires on the range.

Fought almost persistent light and the reports are the new safe. Experiences are reported from other range towns, but known there have been no fires. Borry had as hard fighting and the residents of 10 miles away, had to go to distance.

SENTIMENT GROWS.

Finds Conditions Encouraging in Connecticut. Sept. 10.—Robert S. eastern campaign manager, returned from New Haven, where he attended the funeral of Alexander Troup, late of the advisory committee. Webb stated that while he was in New Haven a conference of democrats of Connecticut was held. Plans were made for the various state committee organizations. "The sentiment," said Mr. Webb, "is growing all the time in the old-line democrats coming back into the presidential ticket this year. The most encouraging of my Connecticut trip was of ex-Governor Walter to the campaign. Several from Rhode Island also attended conference and brought reports from that state in the democratic prospects."

Has Narrow Escape.

on the Bear, Sept. 10.—Leonard Wood, of the army, who is witness to maneuvers here, had escape from a serious accident in the field the horn of the numerous staff automobiles. General Wood's animal began to rear and finally falling almost on his right leg. The spur from the general's boot, but making up as the result of was unhurt.

Will Meet in Annapolis.

Sept. 10.—It is announced that the national conference of the United Brotherhood of Carpenters and Joiners of America, has acquired at least near Dispers to transfer a number of members from America. This time, it is said, because of the anti-trading laws in the United States has refused to purpose the famous Gainesville property.

GOLD BRICK ROBBERY.

Final Chapter in a Sensational Affair of Two Years Ago.

Seattle, Wash., Sept. 10.—Stepping from the steamer Senator, which had just arrived from Nome, James H. Beggs was Tuesday night arrested on a charge of entering the state with stolen goods. The capture is expected to stand as the final chapter in the sensational gold brick robbery of two years ago on the steamer Tanana, which netted the thieves over \$75,000, part of which was afterwards returned by "Robby" Miller. Beggs is believed to be the custodian of over \$19,000 which Miller is said to have secreted near Fairbanks, Alaska.

Robert Miller is supposed to be on his way from Skagway to Seattle to meet Beggs and divide the money. Miller completed a two-year term of imprisonment this spring and immediately upon his release went north. The Firemen's Fund Insurance company of San Francisco, which had paid the full loss on the gold, did not lose track of him and his movements were known to them from the time he left McNeil up to the time he is alleged to have given Beggs the gold. He went direct to Fairbanks. Charles Dreifel, his chief deputy marshal, put a man on Miller's trail and it was due to the deputy's close surveillance that Beggs was accused of carrying out the gold which Miller had left.

Beggs will be formally charged. The officers are confident they will capture Miller.

FATAL FIRE.

One Man Burned To Death and Several Persons Injured.

Philadelphia, Sept. 10.—One man was burned to death, two women were seriously injured and several others more or less badly burned Wednesday in a fire which destroyed the men's and women's buildings of the Philadelphia cricket club at Chestnut Hill, a suburb.

There were only employees in the buildings when the fire started.

The dead:

Thomas McHenry, sixty-five years old, waiter; burned in his bed.

The injured:

Mr. Hollis, forty-five years old, a caretaker, badly bruised.

Mrs. Driscoll, leg broken.

John Webb, foreman engine company, badly burned.

Harry Garner, fireman, burned about body.

The victims of the fire occupied bed-rooms on the second floor of what is known as the men's building. When the women were awakened by the fire all chance of escape was past. They started for the room occupied by McHenry, to arouse him, but the flames had also cut off that portion of the house and the women were forced to care for themselves.

The origin of the fire is unknown.

IN MEMORY OF FOSTER.

Move for a Monument to Author of Well Known Songs.

New York, Sept. 10.—In order to build a monument to the memory of Stephen C. Foster, the author of "My Old Kentucky Home" and "Way Down Upon the Swannee River," Miss Henrietta Crossman has made a proposition to Governor Napoleon B. Broward, of Florida, to give a performance of one of her plays in any city in Florida he may select and donate the entire receipts to a fund that will go to accomplish the building of a statue to the honor of the man who made the "Swannee River" famous.

Miss Crossman is the grand niece of Stephen C. Foster.

Kentucky has already honored the memory of Foster with a statue and Miss Crossman wants Florida to do the same.

Will Meet in Annapolis.

Montgomery, Ala., Sept. 10.—The Alabama Rural Carriers voted to go to Annapolis next year and elected the following officers: President, Julius Merritt; vice president, R. H. Carlisle; secretary, R. G. Beavers; treasurer, A. A. Clayton; delegates to the national meeting at Omaha, President Merritt, S. D. Reynolds and W. C. Beavers; executive committee, W. D. Pate, H. D. Russell, J. F. Darnes.

A SPLIT ON HUGHES

Result of the Primaries in Greater New York.

DISTRICTS BADLY DIVIDED

While There is a Strong Hughes' Sentiment Among a Certain Element, It is Shown that There is Also Bitter Opposition in Some Quarters.

New York, Sept. 10.—That Governor Hughes will have the support of about forty per cent of the delegates from New York county to the state republican convention at Saratoga next week is the opinion expressed by Herbert Parsons, chairman of the county committee, after analyzing the vote cast in Tuesday's primaries. While the test vote was made in only nine assembly districts in New York county, Mr. Parsons said that it was quite apparent that there is a strong Hughes sentiment among a certain element which votes the republican ticket.

GOVERNOR HUGHES.

It was shown also, he said, that there is bitter opposition to the governor in certain quarters, notably in those sections of the city where foreign born citizens predominate. In the selected districts of Kings county the net vote against the governor's renomination was more than two to one.

There are many who are not inclined to accept Tuesday's voting in the scattered districts as indicative of sentiment throughout the greater city. They point out that in those districts in which the leaders have opposed the governor's candidacy the result was quite reverse. Another point which has been made in this connection is that nothing like the full vote was brought out. As an instance, there is the eighth assembly district of Brooklyn which west 103 for Hughes and 544 against him. In this district last year the republican candidate for the assembly received 3,272 votes.

Found Dead at Foot of Bluff.

Chattanooga, Tenn., Sept. 10.—The dead body of William Piemmons, of Sweetwater, Tenn., was found by a small boy Tuesday at the foot of a high bluff on the Tennessee river. Piemmons had been shot in the left temple. All evidence points to murder, with robbery as the motive. There is absolutely no clue as to the perpetrator of the deed. Piemmons' pockets were turned inside out. There were no evidence of a struggle.

Crowned in Alabama River.

Montgomery, Ala., Sept. 10.—F. D. Scott, aged thirty, was drowned in the Alabama river while in swimming. He got in beyond his depth and a companion was not able to rescue him. The dead man was a son of M. C. Scott.

United Brethren Conference.

Warsaw, Ind., Sept. 10.—With seventy delegates in attendance, the annual general conference of the United Brethren church convened Wednesday at Warsaw, Ind., with Bishop G. M. Matthews of Chicago presiding.

PUT TO DEATH BY MOB.

Negro Killed Woman and Attempted to Assault Her Daughter.

Oxford, Miss., Sept. 10.—Lawson Patton, a negro, who Tuesday killed Mrs. M. McMillan, a white woman at her home here and then attempted to assault her 16-year-old daughter, was taken from the jail Tuesday night by a mob and lynched.

The killing of Mrs. McMillan was unusually brutal. After delivering a message from the woman's husband, Patton refused to leave the woman's home. When she secured a pistol and attempted to frighten him away he grappled with and disarmed her. Then forcing her head backwards with one hand, he drew a razor blade across her throat, killing her.

The negro then attempted to assault the girl, but was frightened away.

Patton was later captured after exchanging shots with posse, during which he was badly wounded. A mob began to form shortly after he was brought to jail and despite the pleadings of the county officials, who promised a speedy trial, the mob, shortly afterwards, battered the doors of the jail and securing Patton, hanged him to a telephone pole.

MONEY COMING BACK.

Southern Railway Again Depositing in Georgia Banks.

Atlanta, Sept. 10.—On Tuesday the Southern railway returned to the practice of depositing its funds in the Georgia banks. These deposits aggregate monthly \$600,000.

Several months ago this road withdrew its deposits from Georgia, alleging the Georgia garnishment laws worked a great hardship upon them in as much as their funds were being constantly tied up whenever suits for damages were filed against them.

Rome, Ga., Sept. 10.—The money of the Southern railway is coming back to Georgia. The depository for north Georgia is the First National Bank of Rome. This includes both freight and passenger receipts, and amount to \$2,000 a day, while a large balance is also carried.

SUICIDE AT VALDOSTA.

Russian Jew, Despondent Over Finances, Takes His Life.

Valdosta, Ga., Sept. 10.—M. Rassas, a Russian Jew, who has been living near this city for eight or nine months, committed suicide by drinking carbolic acid. He had been despondent for some time over his financial condition and had threatened before to take his life. Monday he received a letter from his father in New York state saying the latter was in destitute circumstances and requested the son to send him money. Rassas not only had no money with which to help his father, but owed bills here which he was unable to pay. The suicide lived with his brother and as soon as it was found that he had taken poison he was hurried to the Union hospital, but was dead when he reached there.

RAILROADS CONSOLIDATE.

Gulf and Chicago and New Orleans, Mobile and Chicago Combine.

Mobile, Ala., Sept. 10.—At the meeting of stockholders of the Mobile, Jackson and Kansas City Railroad company in this city the agreement for consolidation of the first named road with the Gulf and Chicago Railroad company, the New Orleans, Mobile and Chicago Railroad company, was unanimously adopted and ratified by more than two-thirds of the stockholders of the Mobile, Jackson and Kansas City company.

The new consolidated company will be known as the New Orleans, Mobile and Chicago railroad.

Sea Island Growers Name Officers.

Lake City, Fla., Sept. 10.—At a largely attended preliminary meeting of farmers held here for the purpose of organizing a purchasing company to control sea island cotton, committees were appointed to report at another meeting Sept. 15th. The temporary officers are T. J. Summersall, president; T. J. Appoyard, secretary; F. K. Green, treasurer. The object looks like it will be successful.

MET AT SPRINGFIELD

Illinois Republicans Hold State Convention.

UNCLE JOE CANNON PRESIDES

Speaker Cannon in Speech to Convention Urged that All Differences Be Forgotten and Harmony Prevail Along All Lines.

Springfield, Ill., Sept. 10.—The republicans of Illinois met here Wednesday in state convention and nominated four trustees for the University of Illinois, selected presidential electors and adopted a platform.

Roy O. West, chairman of the state central committee, called the convention to order and introduced Joseph G. Cannon, speaker of the house of representatives, as chairman of the convention.

The convention was not as largely attended as in former years, because there were no contests of any consequence, for the primary election held August 8 determined the candidates for state offices.

Speaker Cannon in his speech to the convention urged that all differences be forgotten and that there be unity and harmony along the line and that everybody work for the success of the state and national ticket.

BRYAN SEES VICTORY.

Democracy a Winner if Ground Gained Is Held.

Chicago, Sept. 10.—Wm. J. Bryan told the members of the democratic national committee at their meeting Tuesday to discuss campaign plans before the candidate makes his swing through the eastern states that with a perfect organization to conduct the presidential fight, the victory for democracy's cause was assured.

Mr. Bryan said that he and Mr. Kern had presented the issues carefully and that he was absolutely confident that he would be elected if there was a strong organization to hold the ground that had been gained. The outlook for victory, said Mr. Bryan, was much brighter than it was a month ago. The candidate told the committeemen that he was more than pleased with the work of the national committee, and hoped the work would be continued in the same spirit.

PACKAGE STRANGELY MISSING.

Contained Valuable Papers Representing Over \$50,000.

Portland, Ore., Sept. 10.—A package entrusted to the care of the Wells, Fargo Express company at Salem, Oregon, by J. H. Albert, president of the Capital National bank of that city, and addressed to Joseph M. Meyers at the Portland Hotel in this city, containing notes and other valuable papers representing over \$50,000, is strangely missing.

That the package reached Portland from Salem on the Southern Pacific train arriving here at 11:30 o'clock on the night of August 31, has been established beyond doubt, but what became of it after that hour would be welcome news to the express company, to Joseph Meyers and Banker Albert.

Carrier Pigeon Far at Sea.

Galveston, Tex., Sept. 10.—Captain Banker, of the Mormon liner El Cid, when his vessel arrived in port brought with him a carrier pigeon which he picked up at sea 650 miles off the Texas coast. He says that the bird dropped to the deck if the ship and when picked up was completely exhausted. The bird had attached to its leg a silver band bearing the inscription "No. 13 H. B.". Local pigeon fanciers know of no such record mark or number.

\$50,000 Fire at Cincinnati.

Cincinnati, O., Sept. 10.—Fire early Wednesday destroyed the four-story brick saw, floor and blind factory of the William Mayer Co., and for a time threatened adjoining property. The loss is estimated at \$50,000 with insurance of \$35,000.

HARD ROAD FROM HERE TO THE KEYS

Question Is Being Urged by J. A. Williams of Levy County.

ADVISES PEOPLE OF LEVY TO ACT

Wants to Connect With Hard Road Alachua Commissioners Are Now Building West, Which Runs via Newberry, Trenton, and on to Keys.

There is a strong chance of a rock road being built from this city to Cedar Key, if the people of Levy county take action in the matter, as it is now being urged in that county.

The citizens and the commissioners are already at work upon the road spoken of by Mr. Williams in his communication to The Bronson Times-Democrat, and if sufficient interest can be aroused by the citizens of Levy the road will be an assured thing.

Mr. Williams says in his open letter to the people of Levy county:

"It is my desire to see a hard road to the sea at Cedar Key, Fla. I think the north end should connect at Trenton with the hard road that is being built from Gainesville via Newberry.

"I do not mean a mere public road, but a rock road, say 14 feet wide, and as near as airline as it is practicable to build. You people in the western part of the county have as good or better farming land than any of the rest of us. You have no railroad or any other way of marketing your farm products, nor are you likely to have for many years yet to come.

"A rock road will in my opinion do you more good than a railroad, for the railroads carry away the money while a rock road will enable you to market your products and at the same time keep your money at home. It will more than double the value of your land, on an average. It will give to you Gainesville, Newberry, Trenton and Cedar Key as markets.

"It will advertise your county, and especially the western portion, as nothing else will do.

"There is now a hard road near completion from Gainesville to Tampa. In a few years more I anticipate there will be hard roads from Gainesville to Jacksonville and Tallahassee.

"This road will cost us about twice as much as the new court house did and will be of ten times more service to you. We have paid for the court house, and who of us have felt the burden to be galling?

"Now is the time to build it, before the turpentine and timber is all gone, thereby reducing the assessable property of the county. The law provides for the establishment of special tax road districts similar to our sub-school districts, in which a special tax can be levied for road purposes not exceeding 5 mills. In my opinion we should form a special road district embracing the whole west side of the county, making it as large as possible, levy the 5-mill tax and devote the whole of it to the building of such a road.

"Here is something for the Farmers' Union to take hold of that will ever be a monument to its existence.

"J. A. WILLIAMS."

SCHOOL OPENS AT FRANKLAND.

Mammoth Pumpkin Raised by W. M. Hines on His Farm.

Frankland, Sept. 10.—The school at Frankland opened last Monday under the management of Miss Katherine Salter, with twelve pupils present.

The farmers are very busy gathering corn and the fleecy staple.

W. M. Hines is considered the largest pumpkin grower of the West End, as he planted one the 14th of June and pulled it September 7th. It was 5 feet 11 inches by 5 feet 8 inches, weighing 190 pounds.

The friends of Wiley Hines, who had the misfortune to break his leg in two places, are glad to learn that he is improving.

Safety of the Stupid.

"Bliggins says that he has no regrets for anything he ever said."
"Yes," answered Miss Cayenne. "That is a satisfaction enjoyed only by people who never say anything of the least importance."—Washington Star

OPERATORS WILL REDUCE OUTPUT

Will Market Only So Much As Absolute
Necessities Require.

NO MORE BOXES WILL BE CUT

At the High Prices They Paid for
Timber They Are Compelled to Reduce
Output Until Naval Stores
Prices Materially Advance.

The meeting of the Turpentine Operators' Association which convened in this city Thursday, was largely attended by the producers throughout this territory and much interest manifested.

It was decided at this meeting to cut down the product of the naval stores for the remainder of the year, and urge all other members who were not present of the action and to curtail the output as much as it was possible for them to do at this season.

The sense of the meeting was that it would be unwise for them to produce anywhere near their full output of rosin and spirits and put them on the market at the present prices, and the members present voted that they produce no more than would be absolutely necessary, in order to save themselves from what they already have cut ready to scrape.

The members present also agreed not to cut any more boxes, and to use their efforts to get others not to cut boxes.

It is to be regretted that more members could not have attended this meeting, but a larger number than was expected were present, and it can safely be said that a majority of the operators from the counties of Levy, Alachua and Bradford were here to participate, and will inform those who were compelled to stay at home of the action of the body.

ARRESTED GERMAN SPY.

Police Set Trap and Catch Man Red-Handed.

Orleans, France, Sept. 10.—The police have arrested a German spy while attempting to bribe a French soldier to abstract important parts of a field gun. An individual, describing himself as an agent of a German brewery recently got into communication with an artilleryman who, however, informed his commander of the German's propositions, with the result that a trap was set and the German caught red-handed.

Importance to the capture, are maintaining the greatest secrecy.

MYSTERIOUS MAN DIES AT RALEIGH

Had Card Showing Him To Be Connected With Detective Agency.

CINCINNATI SUPPOSED HOME

Lay Around for Several Days Before He Was Finally Cared For by T. J. Cone, Who Immediately Summoned a Physician.

Homeless, penniless, sick with a relapse of typhoid fever, was the sad plight in which Gilbert Yost of Cincinnati died at Raleigh on last Saturday night.

He was passing through the country in the disguise of a tramp and little attention was paid to the man by the citizens of Raleigh, where he had been forced to rest up for a few days, until the attention of T. J. Cone was called to the stranger.

Mr. Cone approached the man and saw that he was sick, seriously so, and at once ordered a physician to come to the assistance of the unfortunate being and render him what assistance he could, to see if the man could not be nursed back to health and strength and finally give some account of himself, but the dreaded malady had too great a hold upon its victim, and as a result the unfortunate man passed away, a stranger among strangers.

Although the man was conscious, he never at any time gave any account of himself, or doings, and the matter was not pressed upon him by Mr. Cone, who thought him too seriously ill to talk of these matters at that time.

Dr. Willis of Williston was summoned and did everything possible, but he gave it as his opinion that the patient had a severe attack of typhoid fever and this was a relapse.

After his death the body was neatly dressed and deceased appeared to be good-looking and apparently a man of refinement, his every feature bearing out these impressions.

Among his effects was found only one card that he could be identified by, which read: "Gilbert Yost, Cincinnati Detective Bureau Ass'n."

Aside from the above, Mr. Cone knows nothing, but is extremely anxious to know more of his mysterious guest.

THE FLOWER ON THE LAWN.

By T. B. Pearson.

Come, my dear, and hear me sing
Of a little flower that one spring
Bloomed upon a pretty lawn
For a while, and then was gone.

Think not, my dear, because it was
small

That it did no good at all;
But rather that it did impart
Joy and gladness to the heart
Of the throng that passed by
As well as those who stayed by.

May the flower upon the lawn
Shed its fragrance upon our song,
The song of life that we shall sing
Before we are called to meet our
King.

Bitten by Rattler, Boy Dies.

Valdosta, Ga., Sept. 9.—Emery Mobley, son of W. H. Mobley, living at Fargo, Ga., died Saturday as the result of a rattlesnake bite. Young Mobley was bitten by the snake on Wednesday, and despite the best medical attention he died from the poison. His suffering was very intense.

Exploding Bottle Put Out Eye.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth advertising for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

FIFTEEN YEARS OF KEEN SUFFERING

Rheumatism Developed Burning,
Painful Sores on Legs—Tortured
Day and Night—Tried All Kinds
of Remedies to No Avail—Wife
Had Debility and Pains in Back.

BOTH USED CUTICURA AND ARE WELL AGAIN

"My husband had been a great sufferer with rheumatism for nearly fifteen years. At first it was in his bones, but after a while it was in the flesh and finally running sores broke out on his legs, from below the knees to the ankles. There are no words to tell all the discomfort and great suffering he had to endure night and day. He used every kind of remedy and three physicians treated him, one after the other, without any good results whatever. So one day I happened to read about Cuticura Remedies. I asked him if he would not try them. 'No,' said he, 'it's no use, I've spent enough money now.' The next day I ordered five dollars' worth of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. He began to use them without confidence but after three weeks all the sores were dried up. The burning fire stopped, and the pains became bearable. After three months he was quite well. Two years later the pains and sores came back after he had been working hard and had taken cold. But as soon as he used Cuticura again it cured him. Two years ago I used Cuticura Pills for general debility. They did me a great deal of good and made me well. Three months since I had pains in my back and Cuticura took them away, too. I can prove this testimonial at any time. Mrs. V. V. Albert, Upper Frenchville, Me., July 21, 1907."

A Single Treatment

Consisting of a warm bath with Cuticura Soap, a gentle application of Cuticura Ointment, and a mild dose of Cuticura Resolvent or Pills, is often sufficient to afford instant relief, permit rest and sleep, and point to a speedy cure of torturing, disfiguring eczemas, rashes, itchy eruptions, and inflammations of the skin and scalp, from infancy to age, when all else fails.

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Pills (50c. per box of 60), are sold throughout the world. *Potter Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston.* Mailed free, Cuticura Book on Skin Diseases.

NEWS OF CITY AND COUNTY CONDENSED

Miss Mabel Townsend was in the city yesterday. She has just closed a very successful summer school at Thomas, near Fort White, and was en route to her home at Rex, where she will spend a few days before assuming another charge for the fall and winter months.

H. Maddox, wife and little son, of Archer, were visitors to the county capital yesterday. Mr. Maddox came up in his new car "White Steamer," and judging from the way it hummed around the city it is a fine machine. It is a steam car that is as near noiseless as one could be perfected, and he made the distance in remarkably good time, considering that he got lost several times in trying to come a new route to avoid the heavy sand along the railroad.

EXTRA FROM CITY TO ROCHELLE

Atlantic Coast Line Officials Operate
One Coach Extra from This City to
Rochelle to Carry the Passengers,
Mail and Express.

Train No. 40, due over the A. C. L. in this city at 3:15 p. m. from the south, was operated over the J. T. & K. W. division of this road Thursday, owing to the tremendous high water at Baldwin.

This move on the part of the officials made it necessary to operate a special from this city to Rochelle in order to take care of the mail, express, as well as passengers who have become so accustomed to patronizing these trains.

Near Baldwin there is a tremendous creek on the Coast Line road and the water had risen to such a depth at this point that this action was deemed necessary.

It is to be hoped that the water will recede sufficiently for the regular service to be resumed over this route today, as it is a great convenience to the traveling public and one that they have begun to appreciate.

The one-car special was not very pretty, but it served the purpose, and upon its arrival here it was seen to contain a coach loaded with people, as they were packed in like sardines in a box.

EPWORTH LEAGUE ELECTION.

Annual Election of Officers—Installation on Next Sunday Evening.

The regular monthly business meeting of the Senior Epworth League of the First Methodist church was held Monday night, September 7, 1908.

As this was the time for the election of officers for the next year, after disposing of the regular routine work of the League the election of officers resulted in the following being nominated and elected:

President, John Carlisle; First Vice-President, W. R. McKinstry, who will have charge of the devotional department; Second Vice-President, Miss Mary DaCosta, who will have charge of the charity and help department; Third Vice-President, Miss Kittle Carlisle, who will have charge of the social and literary department; Fourth Vice-President, Miss Mary Crawford, who will have the missionary department in charge; Secretary, Miss Lina Tousey; Treasurer, J. A. Phifer; "Era" Agent, Sidney Godwin; Organist, Mrs. T. J. Dayton.

There will be installation of officers at our League meeting Sunday afternoon at 4 o'clock, and the public is cordially invited to attend this service.

We have an Epworth League of about eighty-six members, composed of the young people of the Methodist church. The devotional department has the Sunday afternoon meetings in charge, attending to appointing leaders for the meetings and the general welfare of the League.

The charity and help department of our League is just what its name implies, and we Leaguers do quite some work along the line of visiting the sick, carrying flowers and visiting strangers. The social and literary department takes care of the social part of the League work, and the missionary department sees to this part of the work. Our League has a mission study class and at present this class is studying Methodist history.

The League wishes to take this method of publicly thanking the retiring officers for their good work for the past year, and to bespeak for those who will soon assume their places in the League, the support, help and prayers of each Leaguer.

GET FAMILIAR WITH THESE.

As there will be a large number of Presidential Electors on the ballot at the election in November it behooves Democrats to become familiar with the Bryan electors, which are as follows:

For Presidential Electors:

H. P. BAILEY.
P. W. BUTLER.
ROBT. E. DAVIS.
GEO. C. MARTIN.
SAMUEL PASCO.

Paste this list in your hat, so that when you are asked who the Democratic electors are you may be prepared to give the desired information.

When the Dutch shall have captured Venezuela the sensational news that they captured Holland may have a rest.

Your store will be bigger and better from this time on than ever before—so, of course, your advertisement must be, too.

Don't forget that the soundest, safest, most conservative business principle is to "advertise your store more than you can afford."

The handshaking stunt between Foraker and Taft has benumbed a number of prophetic predictions about Ohio and the general issue.

It would add spice and spirit to the political situation if it could be arranged for Texas and Alabama, like Maine and New Hampshire, to exploit a September election every Presidential year.

A journalistic philosopher has remarked that there is no married bliss comparable to that in which both the husband and wife are baseball fans, but he forgot to add that they should root for the same team.

The few citizens of Gainesville who spent the heated term at the mountain or seashore resorts have nearly all returned. The few remaining absent are now enjoying themselves in New York, or some other favorite city.

An apostle of a new religion has reduced a number of commandments to seven. This would seem to be a step in the direction of Kipling's Elysium, where "There ain't no ten commandments and a man can raise a thirst."

The farmer who fattens his meat on plunders, peas and potatoes will do so at a cost of not more than four cents per pound. Any farmer can grow peas, plunders and potatoes and as they will produce meat, no farmer should buy a pound of meat, remarks The Tampa Tribune.

It is now predicted that there will be as great a car shortage in a few weeks as there was last year, the crops of wheat, corn, hay, etc., in the West being the largest ever. But the Western farmer is in the saddle this year and will get such prices as he asks for his wheat, corn, meat, etc. This accounts for the fact that the cost of living has not been lessened, notwithstanding the financial depression.

PROBLEMS OF FIRE PROTECTION.

It is stated by fire insurance authorities, says Pearl Evans in American Industries for August, that an average of 60 cents out of every \$1 of premium received is used to pay insured fire loss. With these figures as a basis it will be possible by reducing fire waste for the public, to save on an average, at once all uninsured value now burned and in time 1-2-3 of all insured values now burned.

A word now about the character of fire loss telling wherein it differs from any of the other compared items.

Substantially all of these represent merely transfers of value; whereas, fire loss is an absolute destruction of wealth—the product of man's thought, toil and self-denial. Who can doubt the propriety and wisdom of reducing as far as possible the approximately proportionate life loss which accompanies it? It may be asked at this point whether this waste is unreasonably large, and capable of being reduced. A comparison with other countries of like civilization will supply a fair test. In round figures the per capita fire loss in the United States during the past year has been \$3 as against \$0.33 in the principal European countries, including England, France, Germany and Italy, or nine times more fire waste and interruption of business (which insurance cannot cover) in the United States than in western Europe. There are certain conditions in these countries that operate to effect a lower fire loss than would reasonably be possible here, viz.: the larger use of non-combustible materials, due to the high cost of wood; and better building codes in letter and practice; the height and small areas employed in their city construction; and finally, the intangible influence of their older civilization, which makes these people more careful of small savings in all their affairs and generally more cautious than we have yet become. Allowing for these fundamental differences between the countries compared it is yet apparent that the nine times larger fire loss in the United States than the principal western European countries suffer, is outrageously and criminally greater than it should be; and this condition must arise largely from the ignorance and carelessness of this country's people.

Year by year the farmers are learning that the soil of Florida is adapted to the culture of a more diversified crop than perhaps any other State in the Union and new crops are constantly being experimented with successfully. This fall and winter promises the influx of a large number of homeseekers from the Northwest, and it is safe to predict that the section offering the most inducements will receive the largest share of the new settlers.

The Sun's Bryan and Kern campaign fund now amounts to \$74.50, the second installment of which, \$18, has been forwarded to the treasurer of the National Democratic Campaign Committee. Certainly this fund should reach at least \$100, but it will not unless contributions come in with a little more rapidity. If you desire Bryan's election, help the cause with at least a dollar. No less amount will be received.

The Tampa Tribune truthfully says that "Every newspaper man who does his duty is constantly making somebody mad. Although he realizes this is inevitable, yet no true newspaper man ever intentionally wounds another's feelings, or takes a step that he does not consider necessary for the public good."

CONCRETE IN FERNIE FIRE.

The recent disastrous forest fires which swept Fernie, Canada, and adjacent territory, with great loss of life and property, have proved a valuable, if costly, lesson to the owners of buildings in that territory, says Cement Age of New York. In all of the fire-swept districts in the town of Fernie, which includes all of the business portion of the town, there are left standing but two business blocks and one residence and these are built of concrete blocks. The Canadian Daily World is authority for the statement that "concrete seems to have much better resisting qualities against heat than brick, as all of the brick buildings were burned, and many of the merchants who plan to rebuild express their intentions of using concrete, either in block or monolithic form, as a guarantee against future loss." This is probably the first time in the history of concrete block construction that so absolute a comparative test was made of the merits of concrete and brick or stone, and the evidence left no alternative than to place concrete, as a fire-resisting material, in a class by itself. It is to be hoped, therefore, in many instances where the risk of loss by fire is proportionately high, that the lesson taught in the Fernie fire will not be without a proper value.

If the vacant lots in this city which are now covered by unsightly and mosquito breeding weeds were planted to vegetables they would produce sufficient to supply the entire population of the town. And how much better appearance these vacant lots would thus present. Help the appearance of the city, friends, by clearing out the weeds, and at the same time help yourselves.

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

During the prevalence of a severe electric storm in Tampa Monday night, lightning struck the residence of H. E. Dickinson, the flames darting through the house and totally destroying it before the fire department could reach the scene. The house was valued at about \$2,000.

The Terrell sawmills of the Tampa-Havana Lumber Co., which have been closed for several months on account of the depression in the business world, will resume business next Monday with a full force. They are among the largest mills in Florida. This may be taken as an indication of the advancing prosperity of the field this company covers or it may have been made possible by the recent advance in the price of lumber.

One of the finest specimens of the American flag is flying from the flag-staff in front of the State arsenal at the barracks in St. Augustine, and will continue to grace the headquarters in future. It is a new regulation garrison flag, thirty-six feet in length, and contains the latest star in the blue field for the State of Oklahoma. The flag is the first of the new ones to reach Florida and was received by Adjutant-General Foster recently for use at headquarters.

That Jacksonville is destined to be the New York of the South Atlantic Coast is evident from the fact that every few days some big enterprise springs to the front, each adding to the already large wholesale and retail business in the city, the latest of these being the Merchants' Warehouse Company, an enterprise which will do more towards the upbuilding of the

CURE YOUR KIDNEYS

Do Not Endanger Life When a Gainesville Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Gainesville testimony:

P. Y. Smith, living at 1206 Alachua avenue, Gainesville, Fla., says: "My wife has been troubled for some time with severe headaches. She also complained of a dull pain in her back, and was nervous and weak. I decided that her kidneys were not acting properly, and procured a box of Doan's Kidney Pills for her at J. S. Bodiford & Co's. She received such great benefit from the use of the first box that I obtained another supply, when the pains ceased, and she is now no longer troubled with headaches. It required but the contents of two boxes of Doan's Kidney Pills to entirely cure her."

port and the city than anything that has ever been started or even suggested in the history of progressive Jacksonville.

The Ocala Star says that Mrs. W. J. Lohrig of that city had an experience Tuesday afternoon such as never befell there before, and the surprise may never rack her nerves in the sweet bye and bye as did the unexpected entrance into her parlor of a caller, not of the conventional kind, nor wearing a Merry Widow hat, but came clothed in the habiliments of nature, with head up, eye aflame, her caudal appearance elevated, and lashed into fury by the great surprise that awaited her, as she stopped suddenly in her mad career and facing a large mirror, gazed with mute surprise on her own form, regardless of the shrieks, expostulations and frantic appeals of the occupants of the room, and especially the gracious hostess of the occasion, as though they never existed. The unexpected caller was none other than a pursued bovine, who, in mortal dread of being incarcerated in the city pound, sought refuge in Mrs. Lohrig's parlor.

Ginners Warned by Night Riders.
Shubuta, Miss., Sept. 10.—Early Monday morning notices were found posted at two gins near this place warning the ginners to cease operations. These notices were signed "Night Riders." One of the gins on which the notice was posted is about six miles from this place and is owned by a negro named Abb Heldieberg. The other was on the gin of the Eucutta Ginning company, of Eucutta, about twelve miles distant. The latter gin is owned by Dr. W. O. McNeill and T. H. Leggett. The notices stated that the operators of the gins would be killed unless they ceased to gin cotton. There is no clew to the guilty parties.

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Remedy will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. GEORGIA LEGISLATURE.

Believed End of Extra Session Is Now in Sight.

Atlanta, Sept. 10.—An agreement of the two houses on the convict question is in sight. The basis for such an agreement was submitted Tuesday by the fourth conference committee which has labored to that end. If both houses adopt the conference report the convict lease system will end on March 31, 1909.

The senate representatives receded from the senate position. The Holder bill was made the basis agreement.

The report was signed by Senators Farmer, of the twenty-ninth, and Walden, of the eighteenth, and by Representatives Blackburn, of Fulton; Donaldson, of Decatur, and Chamblée, of Floyd. Senator Henderson, of the thirty-ninth, declined to agree to the report because of the permission it gave to the prison commission, with the consent of the governor, to do contract work.

This will be the main point of attack upon the committee's report. Still the beginning of the end is believed to be in sight, and everybody is jubilant. The session has already cost \$27,000.

Two sessions were held by the senate Tuesday on the convict lease question. The first convened at 10 o'clock and adjourned at ten minutes to 12 o'clock. The second convened at 3 o'clock in the afternoon, and adjourned at fifteen minutes to 5 o'clock. The Persons parole bill was passed by a vote of 23 to 0.

In the afternoon session the report of the conference committee was heard. Upon motion of Senator Flynt a hundred copies of the Holder bill and a hundred copies of the amendments proposed by the committee will be printed.

On motion of Senator Gordy the senate adjourned to meet again Wednesday morning.

QUIET IN HONDURAS.

President Davila Is Said To Have Discharged His Army.

Mobile, Ala., Sept. 10.—Official information received here from Tegucigalpa, Honduras, is to the effect that conditions are quieted down in that country, that President Davila has discharged his entire army recruited for service during the recent revolution, which amounted to about 3,000 or so men. At the different cities and towns only small garrisons of regulars are being kept.

The importers of fruit and business men will hail the abolishment of the volunteer forces with delight and it will mean a valuable acquisition to the industrial forces of the country.

During the insurrection all available men had been conscripted into the army and reports from vessels arriving in the fruit trade were that it was impossible to secure laborers to load ships.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Nowb's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Dulles, Mont., was entirely bald. In less than a month Herpicide had removed the encasement of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal scalp of hair. HAINS BROS. IN JAIL.

How Men Charged with Killing of Annie Pass the Time.

New York, Sept. 10.—With a pack of playing cards with which he builds miniature fortifications, houses and lays plans of battle, Captain Peter C. Haines, Jr., passes his time in his

cell at the Queens county jail, Long Island City, where he is waiting trial together with his brother, T. Jenkins Hains, for the killing of Wm. E. Anals, at the Bayside Yacht club on August 15. Whenever he succeeds in getting the cards in the desired position and completes his building he springs up from his table in an ecstasy of joy and shouts:

"I've got it. I've got it."

T. Jenkins Hains, who is now confined in another corridor, passes his time reading and lounging around. Lawyer Jos. A. Hay, one of the attorneys for the defense, says that it is untrue that T. Jenkins Hains was writing a story of the shooting.

MYSTERIOUSLY DISAPPEARS.

Friends of Mrs. Litt, of Portland, O., Are Alarmed.

Paris, Sept. 10.—Friends of Mrs. H. B. Litt, of Portland, Oreg., are greatly distressed over her mysterious disappearance a fortnight ago. She left her hotel on the afternoon of August 24, saying she was going to the office of the American Express company to get mail. Since then she has not been seen. Her friends and the police have secured the city without finding the slightest clew.

Mrs. Litt is described as a woman of forty-five. She was cheerful in disposition and energetic and had shown no signs of worry. She was not familiar with the French language.

JUDGE APPOINTS EXAMINER.

Contempt Proceedings in Case of Mr. Gompers and Others.

Washington, Sept. 10.—In the case of the contempt proceedings against Samuel Gompers, John Mitchell and Frank Morrison of the American Federation of Labor, in connection with the Buck's Stove & Range Co., Judge Gould has decided to appoint an examiner to take testimony, and William Herbert Smith was designated to perform that service.

Thirty days was given to each side for the purpose of taking the testimony.

Passed Examination Successfully.

James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physician for diabetes, but did not improve until I took Foley's Kidney Remedy. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Remedy cures backache and all forms of kidney and bladder trouble. J. W. McCollum & Co.

Hot Weather in Texas.

El Worth, Tex., Sept. 10.—A special town west of here, says that the thermometer registered 112 degrees. Waco reports a temperature of 101 for the past three days and that the intense heat has caused the wall paper to split from the walls of dwellings, on account of the unusual expansion.

When Trifles Become Troubles.

If any person suspects that their kidneys are deranged they should take Foley's Kidney Remedy at once and not risk having Bright's disease or diabetes. Delay gives the disease a stronger foothold and you should not delay taking Foley's Kidney Remedy. J. W. McCollum & Co.

and—THE REASON

This is to notify the public that we have removed our stock of Crockery, China and Glassware from the Graham building, 116 East Main street N., to our main stores, 120 E. Liberty street, where the entire upper floor will be devoted to this department.

This move will concentrate our business, and at the same time materially decrease our expenses. Taking into consideration these facts does it not look reasonable that we will now be in a position to sell this line at greatly reduced prices? That's the reason.

Come to our store, visit this department, and we will take pleasure in showing you the handsomest and most complete line ever seen in this town.

A QUEER EXPERIENCE

Alma-Tadema's Miraculous Escape From Death.

FREAKS OF AN EXPLOSION.

The Artist's House Was Wrecked, and How He Got Out Alive and Uninjured Is a Mystery—The Puzzle of the Staircase and Hallway.

In 1874 a canalboat carrying a hundred barrels of gunpowder along the Regent's park canal in London exploded just opposite the magnificent house of Laurence Alma-Tadema, the famous artist, across the road. This happened at 4 o'clock on a rainy morning. Every window in London within a radius of a mile was smashed, and the houses in the immediate vicinity, though solidly built of brick and stone, were wrecked.

"I was sound asleep in bed at the time," said Alma-Tadema, "and the first I knew of the explosion was when I found myself standing out on the sidewalk in front of my house in the rain, with my pajamas on and bare feet. How I got there I never know. The entire top of the brick wall in front of the lawn before my house was blown off, and the front of the house itself was as if driven in by the blow of a giant's fist.

"The canalboat, we found out afterward, had blown up underneath a solid bridge that crossed the canal at that point. Had it not been for that my house and the others near it would have been utterly knocked to pieces. It was fortunate, too, that there was no one on the street at the time. Had the explosion occurred in the daytime hundreds of persons might have been killed or maimed.

"But the strangest episode connected with the event concerned the man whose duty it was to keep watch on the bridge during the night. His name was Peter Knox. He was thirty-seven years old, married and had two children. I knew the fellow and had often chatted with him on the bridge. The day before the explosion he had arranged with a friend of his to come at 4 o'clock and relieve him. It was a Saturday, and he wanted to take his wife and children a little trip down to Bushey park on the Thames, and he wished to get to his home in east London in time so as to have breakfast and be off early on Sunday morning.

"Well, as 4 o'clock drew near, Peter, so he told me afterward, began to feel anxious lest his friend should have forgotten the appointment. He paced up and down the bridge and looked up the street, but the morning was so dark and misty with the rain that he could see only a short distance. A few minutes before 4, he said, he noticed a line of canalboats come slowly down toward the bridge, but paid no special attention to them.

"Just before the first boat passed under the bridge he stepped off it, though in doing so he was infringing the regulations, and sauntered up the street in the direction from which he expected his friend to appear. He had gone about forty yards when the explosion took place, and when he turned not a brick of the bridge was left. If he had been less impatient or if his friend had been more prompt, one or both of them would never have been seen or heard of again.

"But my own little adventure was singular enough. As I said, I was not conscious of having been awakened by the explosion, still less of having got out of bed, come downstairs, opened the front door and stepped out to the sidewalk. The shock had knocked all memory of these acts out of my head, and I have never recovered it.

"But what puzzled me most was the condition of things I found when I went back into the house. The hall was a mass of wreckage, and the staircase from top to bottom was covered with pieces of broken glass, sharp as razors and so distributed that I found it impossible to ascend without a light to show me where not to tread.

"Nevertheless I had come down those same stairs, with my eyes shut or unseeing, and had never so much as scratched my bare feet. The thing was impossible, and yet I had done it. I had been skeptical about miracles before that, but since then I have been both a believer and an evangelist."—Chicago Record-Herald.

BUYING THE WIND.

Iceland "Wizards" Who Used to Sell to Superstitious Mariners.

In the old days of sailing ships it was a common thing for a sea captain to "buy the wind" for his voyage, though, strangely enough, the only people supposed to deal in it were the Icelanders. When a constant succession of baffling winds or dead calms had persistently followed a ship for more than one cruise, it was not at all unusual for the skipper of a big wind-jammer to pay a visit to Iceland for the sole purpose of purchasing wind enough to last him on his next voyage or two.

In every port in Iceland one or more "wind wizards" were to be found, who were ready to sell a favorable wind for the next six months or a year to any sea captain willing to invest in something he could not see. The sailor, having found his way to the magician's house, first proceeded to spread out upon the floor the articles offered in payment for the wind—tallow candles, cloth, beads, knives, powder and lead. After a good deal of haggling and many times adding to or taking away from the little pile of merchandise between them the price was finally agreed upon, and the captain passed over his handkerchief to the Icelandic.

The wind merchant muttered certain words into it, tying a knot in the handkerchief at the end of each incantation. This was done to keep the magic words from evaporating. When a certain number of knots had been tied, the handkerchief was returned to its owner, with a strict charge to keep it knotted and guard it with extraordinary care until he arrived at the desired port, and at each port a knot was to be taken out.

One old captain had been so bothered with head winds that he kept crying out to the Icelandic to tie another knot in the handkerchief and another and another, so as to be sure of plenty of the wished for zephyrs, until finally there was no room for any more knots and three knives and thirty candles had been added to the heap on the floor. But when the wind greedy captain was two days at sea a terrific gale began to hurl the ship ahead of it, ever increasing in fury, until she plunged along under bare poles, with her nose deep in the brine and tons of water washing her decks. Darker and darker grew the sky, and higher and higher rose the racing, foam crested waves, hammering the laboring vessel with ceaseless blows until her seams began to open under the strain and let in the sea.

Then, believing he had the devil in his pocket, the badly frightened skipper drew forth the much knotted handkerchief and threw it overboard. In a short time the tempest abated, the clouds cleared away, and the waters subsided, but one seaman never again bought wind. He was content with the kind that comes by chance.—New York Times.

French Oyster Gatherers.

The work of oyster collecting and culture is most unsuitable for women, but in France, owing to its tedious nature, it does not appeal to men. Often from an early hour in the morning till late into the evening the women are standing up to the knees in water, with a strong sun beating down on them. The result is that never a year passes without some of them going mad and having to be hurried away to the asylums. The work is well paid, as, indeed, it ought to be, while in the case of the few who own beds the profits are large, and small fortunes are quickly amassed.

His Quietus.

The bridegroom relaxed for a moment his arm's tense pressure. "What would you do," he whispered hoarsely, "if by some terrible accident I should be drowned?" In the mild moonlight he saw his young wife pale and shudder. "Oh, don't, Tom!" she cried. "How can you? You know I don't look well in black."—Chicago Inter Ocean.

Not Impressed.

"I have been abroad in the best of society," boasted the city youth. "Why, even my trunks bear the labels of Switzerland." "Gosh, that ain't nothing, sonny," drawled his rural uncle. "So does a box of cheese."—Chicago News.

Paid For.

An Irishman entered a country inn and called for a glass of the best Irish whisky. After being supplied he drank it and was about to walk out when the following conversation took place: Landlord—Here, sir; you haven't paid for that whisky you ordered. Irishman—What's that you say? Landlord—I said you hadn't paid for that whisky you ordered. Irishman—Did you pay for it? Landlord—Of course I did. Irishman—Well, then, what's the good of both of us paying for it?—London Tit-Bits.

The Swiss Republic.

The Swiss republic, with various changes, has survived from the year 1303, though its present constitution dates only from 1874. It now embraces three nationalities—German, French and Italian. The original nucleus of the state, however, was German, and even now considerably more than half the population is German. Federated under the constitution of 1874 are twenty-two distinct states.

CROPS GROW WITHOUT RAIN.

How the Syrian Peasant Makes Use of the Moist Subsoil.

In Syria and Palestine from the beginning of April until October there is practically no rain, yet in July the fields teem with a vigorous growth of watermelons, tomatoes, cucumbers, etc., all flourishing without artificial watering, although at that time no rain has fallen for many weeks.

In fact, the Syrian peasant from the moment his seed has been sown prays that no rain may fall. During the period of growth of a crop the surface of the soil to a depth of six or eight inches is perfectly dry and loose. Below this surface layer will be found moist soil, in which the roots extend and grow vigorously. In this moist subsoil plants continue to grow until late autumn. When the crop is removed in the autumn the rains commence, and the land is plowed after each heavy rain as soon as the soil begins to dry.

Two primary objects are kept in view in plowing—to furnish a favorable surface for taking up all the water and to prevent its upward evaporation from the subsoil. The great point is to keep the upper six inches of soil perfectly loose and friable, so that the moisture from below is not drawn upward and lost in evaporation, but does not ascend higher than the compact subsoil that is not broken up by the plow. For this reason the plowing is shallow, averaging from four to six inches in depth.

When the time for sowing the seed arrives the land is plowed to a depth of about six inches and the seed is sown from an arrangement attached to the plow, falls on the damp subsoil and is covered by the soil closing over behind the plowshare. From this time the upper stratum of loose soil prevents the escape of moisture upward beyond the wet subsoil on which the seeds rest and into which their roots after the process of germination spread.—Chicago Tribune.

17TH ANNUAL MEETING.

Convention of the Concatenated Order of Hoo Hoo.

Chicago, Aug. 10.—The Concatenated Order of Hoo Hoo, a fraternal lodge of the National Lumbermen's association, began its seventeenth annual convention here Wednesday, with impressive ceremonies.

The dates for the beginning of the three days' convalescence were chosen with an eye to mysticism, being the ninth day of the ninth month at 9:09 o'clock a. m. The attendance was in the neighborhood of fifteen hundred. The feature of the gathering will be the "embalming" on Friday of past supreme snark, John S. Bonner, of Houston, Tex., who by virtue of the ceremony will be given the degree of Mummy and will become a deified member of the ancient house.

Sold by W. M. Johnson.

Second Primary in Carolina.

Columbia, S. C., Sept. 10.—The second democratic primary to nominate a United States senator, railroad commissioner and state superintendent of education and congressmen from the fifth and sixth districts was held Tuesday. So far the returns indicate that E. D. Smith, field agent of the Southern Cotton association, has been nominated to succeed Senator Frank B. Gary. Candler, for railroad commissioner, has a good lead over Caughman, incumbent, and Swearingen, for superintendent of education, is leading Mellichamp by over 4,000 votes.

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds and lung trouble. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. J. W. McCollem & Co.

LEGAL ADVERTISEMENTS.

NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT.

Notice is hereby given that the undersigned intend to apply to the Governor of the State of Florida, at Tallahassee, Florida, for Letters Patent incorporating INVESTMENT COMPANY under the laws of the State of Florida, with and under the following proposed charter, the original of which is now on file in the office of the Secretary of State of the State of Florida.

CHARLES W. CHASE.
BAILEY F. WILLIAMSON,
E. E. VOYLE.

Proposed Charter of Investment Company.

The undersigned hereby associate themselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws of the State of Florida, with and under the following proposed charter:

Article 1—The name of this corporation shall be Investment Company, and its principal place of business shall be Gainesville, Florida, but said company may have such branch offices and other places of business in the State of Florida, in other States, and in foreign countries, as said corporation shall desire.

Article 2—The general nature of the business or businesses to be transacted by said corporation shall be buying, leasing, acquiring, selling, conveying and disposing of wood, materials and other property and appurtenances, and rights, licenses and privileges pertaining thereto; to borrow money and secure the same and moneys otherwise owing by mortgages, deeds, bonds, notes or other obligations therefor; to receive payment for capital stock in this company in money or in property, labor or services, at a just valuation thereof, to be fixed by the Stockholders or Board of Directors; to make contracts of any kind whatsoever for the furtherance of its purposes and businesses, including agreements or contracts between the said corporation and individuals or other corporations, in any of the lines of business of this corporation; to acquire, own, lease, sell and dispose of all property, real and personal, and of every nature and description that may be necessary or proper to the conduct of said business or businesses; and to do any and all things necessary and proper in and incident to the business or businesses aforesaid, or any of them.

Article 3—The amount of capital stock of this corporation shall be One Hundred Thousand Dollars (\$100,000.00), divided into one thousand (1,000) shares of One Hundred Dollars (\$100.00) each. All or any of said capital stock of said corporation may be payable in or issued or used for the purchase of property, labor or services, at a just valuation thereof, to be fixed by the incorporators or by the Board of Directors, at a meeting to be called for that purpose.

Article 4—The term for which said corporation shall exist shall be 99 years.

Article 5—The officers of said corporation shall be a President, a Vice-President, a Secretary and a Treasurer, to be elected by the Board of Directors, and a board of not less than three Directors to be elected by the Stockholders. The same person may hold the office of Secretary and Treasurer. The officers of said corporation who will conduct the business of the corporation until those who shall be elected at the first election shall be qualified are: Charles W. Chase, President; Bailey F. Williamson, Vice-President; E. E. Voyle, Secretary and Treasurer, and Charles W. Chase, Bailey F. Williamson and E. E. Voyle as Directors. Such officers and Directors shall be elected annually on the first Tuesday in February in each year.

Article 6—The highest amount of indebtedness or liability to which said corporation can at any one time subject itself is Five Hundred Thousand Dollars (\$500,000.00.)

Article 7—Said corporation shall adopt a corporate seal and may adopt by-laws for the government of its affairs not inconsistent with its articles of incorporation or the laws of the State of Florida, and said by-laws may be amended or repealed and others adopted from time to time, as may be provided in said by-laws.

Article 8—The names and residences of the incorporators of said corporation, and its subscribers for stock thereof, with the number of shares of its stock subscribed for by each, are as follows:

Charles W. Chase, Gainesville, Florida, 500 shares.
Bailey F. Williamson, Gainesville, Florida, 300 shares.
E. E. Voyle, Gainesville, Florida, 10 shares.

Before me personally appeared C. W. Chase, Bailey F. Williamson and E. E. Voyle, to me well-known as the persons who executed the foregoing Articles of Incorporation of the Investment Company, and who each duly acknowledged that he executed the same for the purposes therein expressed.

In witness whereof, I have hereunto set my hand and official seal this 26th day of August, A. D. 1908.
I. E. WEBSTER.
Notary Public State of Florida at Large. Commission expires Feb. 11, 1909.

NOTICE OF ELECTION

WHEREAS, The Legislature of 1907, under the Constitution of 1885, of the State of Florida, did pass three Joint Resolutions proposing amendments to the Constitution of the State of Florida, and the same were agreed to by a vote of three-fifths of all the members elected to each house; that the votes on said Joint Resolutions were entered upon their respective Journals, with yeas and nays thereon, and they did determine and direct that the said Joint Resolutions be submitted to the electors of the State at the General Election in November, 1908.

NOW, THEREFORE, I, H. CLAY CRAWFORD, Secretary of State of the State of Florida, do hereby give notice that a

GENERAL ELECTION

will be held in each county in Florida on Tuesday next succeeding the first Monday in November, A. D. 1908, the said Tuesday being the

THIRD DAY OF NOVEMBER.

for the ratification or rejection of the said Joint Resolutions proposing amendments to the Constitution of the State of Florida, viz:

A JOINT RESOLUTION proposing an Amendment to Section Nine (9) of Article Five (5) of the Constitution of Florida relating to judicial salaries.

Be it Resolved by the Legislature of the State of Florida:

That Section Nine (9) of Article Five (5) of the Constitution of the State of Florida be and the same is hereby amended so as to read as follows, viz:

Section Nine (9). The salaries of Justices of the Supreme Court, Circuit Judges and Judges of Criminal Courts of Record shall be fixed by the Legislature.

That the foregoing amendment of Section Nine (9) of Article Five (5) of the Constitution of Florida is hereby agreed to, and the same shall be submitted to the electors of the State for approval or rejection at the next general election of Representatives hereafter, as required by Section One (1) of Article Seventeen (17) of said Constitution.

JOINT RESOLUTION proposing an amendment to Article Twelve of the Constitution of the State of Florida relative to education, to be known as Section Sixteen of said Article, providing for the levy of a special tax for the support and maintenance of the University of the State of Florida, the Florida Female College, the Institute for the Blind, Deaf and Dumb, and the Colored Normal School.

Be it Resolved by the Legislature of the State of Florida:

That the following amendment to Article Twelve of the Constitution of the State of Florida, to be known as Section 16 of said Article, be and the same is hereby agreed to and shall be submitted to the electors of the State at the next general election of Representatives, to be held in the year 1908, for ratification or rejection.

Sec. 16. A special tax of one mill

on the dollar of all taxable property in the State shall be levied annually for the support and maintenance of the University of the State of Florida, the Florida Female College, the Institute for the Blind, Deaf and Dumb and the Colored Normal School, which shall be paid into the State Treasurer and set apart by him to the credit of the State Board of Education, to be apportioned and disposed of for the benefit of said institutions as required by the act creating and maintaining the same, known as Chapter 5384, of the Laws of Florida, approved June 5, 1905.

JOINT RESOLUTION proposing an amendment to Section Thirty-five of Article Five of the Constitution of Florida, relating to establishments of Courts.

Be it Resolved by the Legislature of the State of Florida:

That the following amendment to Section Thirty-five of Article Five of the Constitution of Florida is hereby agreed to and shall be proposed and submitted to the electors of the State for approval or rejection at the next general election hereafter, that is to say, said Section Thirty-five of said Article shall be amended so as to read as follows:

Section 35. No Courts other than herein specified shall be established in this State, except that the Legislature may provide for the creation and establishment of such additional judicial circuits as may from time to time become necessary, and for the appointment by the Governor and confirmation by the Senate of additional circuit judges therefor, whose terms of office and general jurisdiction shall be the same as is herein provided for the circuit judges herein already provided for, and may clothe any Railroad Commission with judicial powers in all matters connected with the functions of their office.

The votes cast in compliance with said proposed amendments, and the canvass, declarations and returns thereof, shall be subjected to the same regulations and restrictions as are provided by law for general elections in the State of Florida.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the Great Seal of the State of Florida, at Tallahassee, the Capital, this twenty-fifth day of July, A. D. 1908.
H. CLAY CRAWFORD,
Secretary of State

July 24, 1908.

EVERY NON-PROGRESSIVE MERCHANT

BECOMES

Your Competitor

When You Cease to Advertise Aggressively

WHEN a merchant "slows up" in his advertising, and concludes to "save a little money" in that direction, then the merchant who never had the courage and foresight to advertise adequately BECOMES A REAL COMPETITOR. Even the merchant who never advertises at all reaps a certain amount of profit from the "slowing up" process of the live store.

Not many merchants, of course, who have at any time set the pace for progressive advertising, will be content to take a backward plunge into the company of the non-progressives, of the LITTLE MERCHANTS, the easily satisfied ones, the un-awakes! But that is just what the "live one" does when he imagines that his advertising is costing too much, and that its curtailment means "saving."

If business conditions ever suggest retrenchment in advertising, the wise merchant knows that this should be interpreted as a signal for "full speed ahead," for redoubled efforts to WIN the business that does not come so easily as usual.
